

MARK AND KRISTA HALEY

Church Planters

*Impacting lives and communities
in Ethiopia by multiplying and
growing Christ followers.*

God Starts New Churches

At the beginning of February, we had the opportunity to train 22 church planters in the Training 4 Trainers method of evangelism. We gave them several tools to help them be successful as they went out into their different areas. Because of your generosity and partnership, Impact Ethiopia Ministries has now been able to work with 10 different church planters to provide them with continued encouragement, training and financial support until each church is able to independently support themselves. Already we are seeing people come to Christ, many with animistic and Ethiopian Orthodox backgrounds. Animistic people worship idols and other different parts of nature (rivers, trees, etc.) We are helping them come to a relationship with the creator of all things!
